Dekeng Setyo Budiarto, Norraini Nordin (Author):

We have reached a decision regarding your submission to Journal of Telecommunications and the Digital Economy, "Technology Transformation, Innovation, and Digital Economy Development: Literature Review in 84 Developing Countries".

After careful consideration of your manuscript, the editorial committee has decided to ask for additional changes and provided the following comments:

- The article has been greatly improved compared to the first version.
- It is recommended to add in the abstract one sentence that clarifies the gap that motivates this research.
- The section "related work" should be positioned before the method section.
- It is recommended to add a stronger discussion of the results and/or conclusion. This could also be done by including a section with gaps/implications for further research

Attached is a file including more comments from the editors.

The deadline for submitting the revised manuscript is January 27, 2024. We kindly request that you carefully consider and respond to each comment, outlining the changes you have made in your revised manuscript. Additionally, we encourage you to provide a detailed response letter that addresses each point raised by the editors, explaining how you have accommodated their suggestions.

Please ensure that you submit the revised manuscript through our online submission system, following the journal's formatting guidelines. Below is a reminder of the journal requirements.

We look forward to receiving your revised manuscript by the stipulated deadline.

Best regards
