

BAB V

KESIMPULAN, KETERBATASAN, DAN SARAN

A.Kesimpulan

Penelitian ini dilakukan untuk menguji secara statistik mengenai apakah terdapat pengaruh antara kecerdasan emosional, kecerdasan intelektual, dan kecerdasan spiritual terhadap pemahaman akuntansi. Uji statistik dari hasil penelitian ini merupakan hasil pengolahan data dengan menggunakan *SPSS* (*software statistics product for the social science*). Berdasarkan hasil pengolahan data yang telah dilakukan dapat disusun kesimpulan penelitian sebagai berikut:

1. Kecerdasan emosional sebagai kemampuan mengenali perasaan, kemampuan untuk memotivasi diri, kesanggupan mengendalikan diri dan menunda kepuasan sesaat, serta mampu berempati dan bekerja sama dengan orang lain. Penelitian ini secara statistik menunjukkan adanya pengaruh signifikan dalam variabel kecerdasan emosional terhadap pemahaman akuntansi pada mahasiswa Jurusan Akuntansi Universitas PGRI Yogyakarta.
2. Kecerdasan intelektual merupakan kemampuan seseorang untuk memperoleh pengetahuan, menguasai dan menerapkannya dalam menghadapi masalah yang di alami pada mahasiswa. Penelitian ini secara statistik menunjukkan adanya pengaruh signifikan dalam variabel kecerdasan intelektual terhadap pemahaman akuntansi pada mahasiswa Jurusan Akuntansi Universitas PGRI Yogyakarta.
3. Kecerdasan spiritual merupakan kemampuan manusia memaknai bagaimana arti dari kehidupan serta memahami nilai tersebut dari setiap perbuatan yang

dilakukan dan kemampuan potensial setiap manusia yang menjadikan seseorang dapat menyadari dan menentukan makna, nilai, moral, serta cinta terhadap kekuatan yang lebih besar dan sesama makhluk hidup karena merasa sebagai bagian dari keseluruhan, sehingga membuat manusia dapat menempatkan diri dan hidup lebih positif dengan penuh kebijaksanaan, kedamaian, dan kebahagiaan yang hakiki. Hal ini berarti dengan semakin baiknya kecerdasan spiritual maka pemahaman akuntansi juga akan meningkat. Penelitian ini secara statistik menunjukkan adanya pengaruh signifikan dalam variabel kecerdasan spiritual terhadap pemahaman akuntansi pada mahasiswa Jurusan Akuntansi Universitas PGRI Yogyakarta.

B. Keterbatasan

Berdasarkan hasil penelitian yang telah dilakukan, penelitian ini tidak terlepas dari kelemahan dan keterbatasan, yaitu:

1. Pemilihan sampel dalam penelitian ini menggunakan metode purposive sampling sehingga mahasiswa yang dijadikan sebagai sampel menjadi terbatas pada kriteria-kriteria yang telah ditetapkan dan hanya meneliti 47 mahasiswa jurusan Akuntansi angkatan tahun 2012 di Universitas PGRI Yogyakarta. Penelitian ini secara statistik menunjukkan adanya pengaruh signifikan dalam variabel kecerdasan intelektual terhadap pemahaman akuntansi pada mahasiswa Jurusan Akuntansi Universitas PGRI Yogyakarta.
2. Setelah melakukan analisis data dan interpretasi hasil, terdapat adanya keterbatasan dalam penelitian ini yaitu hasil penelitian menunjukkan bahwa kecerdasan emosional, kecerdasan intelektual, dan kecerdasan spiritual hanya

dapat menjelaskan pengaruhnya terhadap pemahaman akuntansi sebesar 30,7%. Sedangkan sisanya dipengaruhi pemahaman akuntansi di luar model ini.

C. Saran

Dari hasil penelitian ini kiranya peneliti dapat memberikan saran, diantaranya:

1. Penelitian selanjutnya disarankan menggunakan kuesioner digunakan dalam penelitian sebelumnya dan disesuaikan dengan kebutuhan responden.
2. Bagi penelitian selanjutnya diharapkan dapat menggunakan sampel yang lebih banyak, pada perguruan tinggi swasta dan perguruan tinggi negeri di Yogyakarta.
3. Penelitian selanjutnya diharapkan dapat mengembangkan variabel lain untuk mendapatkan data yang dapat diolah dengan statistik secara maksimal.

PENGARUH KECERDASAN EMOSIONAL, KECERDASAN INTELEKTUAL DAN KECERDASAN SPIRITAL TERHADAP PEMAHAMAN AKUNTANSI

(Studi Empiris Mahasiswa Jurusan Akuntansi Angkatan Tahun 2012 di Universitas PGRI Yogyakarta)

Responden yang terhormat,

Saya memohon kesediaan anda untuk meluangkan waktu sejenak guna mengisi angket ini. Saya berharap anda menjawab dengan leluasa, sesuai dengan apa yang anda rasakan, lakukan dan alami, bukan apa yang seharusnya atau yang ideal. Anda diharapkan menjawab dengan jujur dan terbuka, sebab tidak ada jawaban yang benar atau salah. Sesuai dengan kode etik penelitian, saya menjamin kerahasiaan semua data. Kesediaan anda mengisi angket ini adalah bantuan yang tak ternilai bagi saya.

Demikian yang dapat saya sampaikan, atas kerjasamanya saya ucapkan terima kasih.
